

# Come experience the adventure of a lifetime!

I have always been entranced with dolphins— their beauty, grace, fun loving nature and perfect rhythm as they glide along in the water. In 1997, I sought out and found the most incredible adventure of a lifetime— free diving and snorkeling with these amazing creatures. I discovered the spirituality of the dolphins as they gazed into my eyes, swimming only inches away from me, sharing in the synchronicity of our movements, frolicking and having fun, spiraling, spinning and cruising along to the same rhythm. The trip was so amazing, I found myself returning year after year to experience the adventure again. I invite you to experience:

**BK's Dolphin Dream Adventures**

## *The Spotted Dolphins of White Sand Ridge* Saturday, May 3 – Friday, May 9, 2007

On the Little Bahama Bank, forty miles from Freeport, Grand Bahama Island, a miracle of no small significance occurs daily. For in those shallow waters of twenty feet, Atlantic Spotted Dolphins will swim right up to humans, make eye contact from a foot away, invite play and provide one of the most powerful experiences of a lifetime. Imagine swimming with up to 30 friendly dolphins as they welcome you to their underwater world. Scuba is not necessary when interacting with these wild dolphins. The water is 20 to 35 feet deep, crystal clear and conducive to great encounters in the dolphin's natural habitat.

We return Friday morning, May 9.
